

---

**Acer**

Amur Maple

Sun 15-25' tall 15-25' across

A small tree with a rounded outline. Dark green foliage turning to shades of yellow, orange and scarlet in fall. Makes an excellent specimen tree. Medium Growth Rate.

---

**Acer**

Autumn Blaze Maple

Sun 50-60' tall 50-60' across

Rich green leaves that change to a brilliant red-orange fall color. Very tolerant of soils, but prefers slightly acid and moist soils. Good heat and drought tolerance. Fast Growth Rate.

---

**Acer**

Burgandy Belle Red Maple

Sun 40-50' tall 30-40' across

Compact oval to rounded shape. Has beautiful long-lasting red to burgundy fall color. Good heat and drought tolerance. Medium Growth Rate.

---

**Acer**

Crimson Sunset Maple

Sun 35' tall 25' across

A new truncated maple with good drought resistance. It has dark red leaves from spring through fall. It will tolerate summer heat better than other red-leafed maples.

---

**Acer**

Cutleaf Silver Maple

Sun 50' tall 40' across

Deeply lobed lacy leaves that change to a bright yellow color in fall. Good heat and drought tolerance. Improved form of Silver Maple. Fast Growth Rate.

---

**Acer**

Flashfire Sugar Maple

Sun 45' tall 40' across

A seedling selection of Caddo Maple. It has dark green leaves, good drought tolerance, and resistance to leaf damage in the wind. Excellent bright red fall color.

---

**Acer**

Sun Valley Red Maple

Sun 25-40' tall 15-25' across

Sun Valley is a cultivar with exceptional fall color and leafhopper resistance. A medium sized tree with an oval crown. The fall color is brilliant red and quite long lasting. Medium Growth Rate.

---

**Acer**

Urban Sunset Maple

Sun 30' tall 15' across

A compact, upright, and narrow tree that develops a uniform canopy. Easy to grow developing an ideal upright street tree. Elegant high gloss leaves are heat and pest resistant. Deep red fall color.

---

**Amelanchier**

Serviceberry

Sun 20' tall 15' across

White flowers in early spring. Bluish-purple fruit in the fall. Fall color is a mixture of brilliant golds, oranges and reds. Prefers Partial Shade but will tolerate Full Sun. Medium Growth Rate.

---

**Betula**

River Birch

Sun 40' tall 35' across

Pink to cinnamon colored peeling bark. Likes moist sandy soils. Good substitute for white birch. Resistant to Bronze Birch Borer. Medium to Fast Growth Rate.

---

**Betula**

White Spire Birch

Sun 40' tall 25' across

Similar to European White Birch in size and appearance. Tolerant of a wide range of growing conditions and high temperatures. Resistant to Bronze Birch Borer. Medium to Fast Growth Rate.

---

**Cercis**

Redbud

Sun to Part Shade 15' tall 20' across

Native tree with showy rose-pink flower in spring. Fall color is a bright yellow. Adaptable to many soil types. Can be trained and used in foundation plantings. Medium to Fast Growth Rate.

---

**Cornus**

Galilean Dogwood

Sun to Part Shade 20-25' tall 15-20' across

A kousa Dogwood with large hunter green leaves. It flowers in late spring with large white flowers that smother the branches of this robust-growing tree. Red fruit in late summer, orange fall color

---

**Eucommia**

Hardy Rubber Tree

Sun 40-60' tall 40-60' across

A large shade tree with lustrous dark green leaves in summer. A pest free tree.

---

**Ginkgo**

Autumn Gold Ginkgo

Sun 40-50' tall 20-30' across

A male selection of Ginkgo with a symmetrical conical form that gets broader with age. Has a nice yellow fall color. Seedless.

---

**Gleditsia**

Imperial Honeylocust

Sun 30-35' tall 30-35' across

Imperial is small and rounded, the most compact and formal of the popular Honeylocust cultivars. Wide branch angles resist storm damage and create a horizontal spreading branch pattern.

---

**Gymnocladus**

Kentucky Coffee Tree

Sun to Part Shade 50-60' tall 30-40' across

A tough native tree that is adaptable to many sites. The tree is coarse when young but quickly develops into a nice shade tree. Slow to Medium growth rate.

---

**Liriodendron**

Tulip Tree

Sun 50-70' tall 30-40' across

A large pyramidal tree with bright green foliage that changes to a golden yellow in fall. Produces yellowish green with a hint of orange tulip-shaped flowers in late spring. Fast Growth Rate.

---

**Magnolia**

Ballerina Magnolia

Sun 20' tall 20' across

A deciduous Magnolia that will produce large white, fragrant flowers in the spring, a little later than similar cultivars, thus escaping many spring frosts.

---

**Malus**

Prairie Fire Crabapple

Sun 15-20' tall 15-20' across

Crimson buds open to pinkish-red flowers. Maroon foliage aging to reddish green. Very small red fruit persistent thru winter. Disease resistant tree. Medium Growth Rate.

**Malus**

Royal Beauty Crabapple  
Sun 10' tall 8' across

A weeping crabapple with deep purple leaves and dark pink flowers in spring. Young trees are very narrow and widen with age to become nearly as wide as tall. Dark red fruit persists into the winter.

**Malus**

Royal Raindrops Crabapple  
Sun 15-20' tall 15' across

Bright, pinkish-red flowers develop into small red, persistent fruit. Purple cutleaf foliage. Medium Growth Rate.

**Malus**

Sargent Crabapple  
Sun 6-8' tall 12-15' across

Single white flowers followed by a profuse crop of small red fruit. A good dwarf, accent tree for small areas. Good for screening. Slow Growth Rate.

**Malus**

Spring Snow Crabapple  
Sun 20-25' tall 15-20' across

Fruitless variety of Crabapple. Produces masses of white flowers in spring. Bright green foliage, yellow fall color. Attractive yellow bark. Medium Growth Rate.

**Platanus**

London Plane Tree  
Sun to Part Shade 50-70' tall 30-50' across

A large shade tree for large open areas. Similar to Sycamore but with whiter exfoliating bark and better disease resistance. Medium Growth Rate.

**Populus**

Prairie Gold Aspen  
Sun 30-40' tall 12-15' across

Adapted to the heat, drought, and humidity of the miwestern praire, this Nebraska native brings lowland adaptability and disease tolerance to a high elevation favorite.

**Prunus**

Canadian Red Chokecherry  
Sun 20-30' tall 15-20' across

Foliage starts out green, changing to reddish-purple by early summer. Has small flower clusters in spring. Red fruit by mid-summer. Needs good drainage & aeration. Remove suckers. Fast Growth Rate.

**Pyrus**

Aristocrat Flowering Pear  
Sun 30-40' tall 25-30' across

Broad, pyramidal flowering pear. Masses of white flowers in spring; yellow to red fall color. Very adaptable to most soil types and conditions. Excellent street or specimen tree. Fast Growth Rate.

**Pyrus**

Capitol Flowering Pear  
Sun 20-30' tall 8-10' across

A very narrow upright habit. Masses of white flowers in spring; purplish-red fall color. Excellent for narrow spaces. Vary adaptable to soil types and conditions. Medium to Fast Growth Rate.

**Quercus**

Bicolor Oak  
Sun 40-60' tall 40-60' across

Excellent oak for wetter areas, but is still very drought tolerant. Beautiful summer foliage, no fall color. Leaves fall quickly after frost. Highly recommended for this area. Medium Growth Rate.

**Quercus**

Burr Oak  
Sun 60-80' tall 60-80' across

Large stately tree with a broad rounded habit. Leaves are dark green in summer. Bark is deeply furrowed giving this tree year-round interest. Native to Kansas. Slow to Medium Growth Rate.

**Quercus**

Chinkapin Oak  
Sun 40' tall 60' across

A native oak in this area. Grows well in our rocky limestone soils. Produces nice horizontal spreading branches. Scaly gray bark and yellow to orange-brown fall color. Slow to Medium Growth Rate.

**Quercus**

Pin Oak  
Sun 50-70' tall 30' across

Attractive pyramidal tree. Prefers moist well-drained acidic soils. Use aluminum sulfate & copperas when planting to help avoid iron chlorosis. Med to Fast Growth Rate. Holds leaves in winter.

**Quercus**

Red Oak  
Sun 60-70' tall 50-60' across

Fast growing oak with rounded symmetrical crown. Good specimen tree for large areas. Foliage is dark red in fall. Fairly tolerant of various soil types. Med Growth Rate. Holds leaves in winter.

**Quercus**

White Oak  
Sun 60-70' tall 60-70' across

Durable long lived tree. Foliage is dark green with silver underneath. Fall color is wine-red. Prefers moist, well-drained soils. Slow to medium growth rate. Holds leaves in winter.

**Salix**

Weeping Willow  
Sun 30' tall 30' across

Graceful romantic weeping habit. Branches hang to the ground, makes a stunning specimen. Does well in wet conditions along streams or ponds. Fast growth rate.

**Syringa**

Ivory Silk Japanese Tree Lilac  
Sun 15-20' tall 10-15' across

An upright spreading to rounded tree with dark green leaves. In early summer this plant is covered with large plumes of small white flowers.

**Taxodium**

Baldcypress  
Sun 50-60' tall 20-30' across

Narrow pyramidal tree with soft bright green feathery foliage in summer changing to rusty-orange in fall. Withstands excessive moisture and drought. Medium to fast growth rate.

**Ulmus**

Emerald Flair Elm  
Sun 35-40' tall 25-35' across

A lacebark Elm with excellent deep dark green foliage in summer and red fall color. A broadly vase shaped tree with arching branches. Dutch Elm resistant.

**Ulmus**

Jefferson Elm

Sun 50-70' tall 40-50' across

An outstanding American Elm cultivar that has shown resistance to Dutch Elm Disease. This large shade tree has deep green foliage, vase shaped growth, and yellow fall color.

---

**Viburnum**

Wavecrest Viburnum

Sun to Part Shade 15-20' tall 10-15' across

Extremely dark green, lustrous foliage, creamy-white flowers and blood-red fruits. Brick to barn-red fall color. A wonderful small tree. Needs moisture during dry weather. Medium Growth Rate.
