

**Juniperus**

Canart Juniper

Sun 15-20' tall 12' across

Compact pyramidal growth when young, opening with age. Develops very picturesque appearance. Produces numerous pale blue berry-like cones. One of the best junipers for Kansas. Medium Growth Rate.

---

**Juniperus**

Spartan Juniper

Sun 15-20' tall 8' across

Rich green color with a dense pyramidal habit. Naturally maintains a nice shape. Medium Growth Rate. Good for groupings, screens, or barriers.

---

**Juniperus**

Taylor Juniper

Sun 20-25' tall 2-3' across

Distinctive, upright narrow form with medium green foliage and a hint of gray. Winter foliage is a medium brown. Tolerant of poor, dry sites and high pH soils. Medium Growth Rate.

---

**Picea**

Colorado Spruce

Sun 30-50' tall 25-30' across

Dense pyramidal growth with foliage color ranging from green to intense steel-blue. Plant in full sun and well drained soil. Water in drought conditions when young. Slow Growth Rate.

---

**Picea**

Columnar Norway Spruce

Sun 20-30' tall 4-6' across

The narrow fastigiate form of Norway Spruce is in high demand for urban and boundary plantings where strong vertical accents are required. This selection grows quite quickly.

---

**Picea**

Norway Spruce

Sun 40-60' tall 25-30' across

A very adaptable evergreen tree in harsh conditions. Water in drought conditions when young. Thrives under seasonal drought once established. Does not like wet soils. Medium to fast growth rate.

---

**Picea**

Thompson Blue Spruce

Sun 30-50' tall 20' across

A symmetrical, pyramidal tree with thick, whitish-silvery-blue needles. Prefers a rich, moist soil in full sunlight. Water during periods of drought when young. Slow Growth Rate.

---

**Picea**

Weeping White Spruce

Sun 30-40' tall 6-8' across

A strong central leader and blue-green foliage on highly pendulous limbs are distinctive characteristics of this evergreen tree. Adds vertical interest to landscapes or can be used as a focal point.

---

**Pinus**

Columnar White Pine

Sun 40' tall 10-15' across

Soft textured, slender, light bluish-green foliage. Pyramidal when young becoming broader with age. Likes fertile, moist, well-drained soil. Fast growth rate. Half the width of White Pine.

---

**Pinus**

Southwest White Pine

Sun 40' tall 25' across

Pine tree similar to Eastern White Pine, but more adaptable to different sites and soil conditions. Foliage has a slight blue cast. Medium to fast growth rate.

---

**Pinus**

White Pine

Sun to Part Shade 50-80' tall 20-40' across

Soft textured, slender, light bluish-green foliage. Pyramidal when young becoming broader with age. Likes fertile, moist, well-drained soil. Fast growth rate.

---

**Thuja**

Green Giant Arborvitae

Sun 30-40' tall 15-20' across

A large evergreen tree with a broad pyramidal form that is useful as a hedge or screen. Foliage is fragrant and dark green. A good substitute for pine trees.
